DIGITAL MEDIA STUDENTS WIN BEST OF SHOW

Indian River State College hosted its 15th Annual Digital Student Exhibition this month at the Kight Center for Emerging Technologies, emphasizing the creativity and dedication of its students at both the high school and college levels. In addition to first and second place awards for each category, three prestigious Best of Show awards were also bestowed for one High School, Associate, and Baccalaureate student.

Participants from Jensen Beach High School, the Clark Advanced Learning Center, Martin County High School, and Indian River State College submitted entries in the following categories: Photography, Publication Design, Package Design, Typography, Illustration, Branding & Corporate Identification, Video, Audio, Animation, Web Media, Games, 3D Modeling, and Fine Art.

The Best of Show for High School was awarded to Ryan Copeland of Martin County High School for his Technical Design & Rendering entry, "Paradise at the Pier". Samantha Beigle received the Best of Show award for Associate students with her Typography entry, "Unity". Finally, the Baccalaureate Best of Show was awarded to Christopher Morales for "Edgar", his Fine Art entry.

All entries were displayed for public viewing, and the Best of Show winners received scholarships to IRSC. "We are very grateful for the opportunity to support these talented students with scholarships to fulfill their studies at IRSC," said Jose Farinos, IRSC Dean of Advanced Technology.

For additional information about the Digital Media programs offered at Indian River State College, contact the IRSC Information Call Center at (866) 792-4772.
