

You have to use Google and create a new user.

That account has to be your 4300# (4300XXXX@sbmc.org).

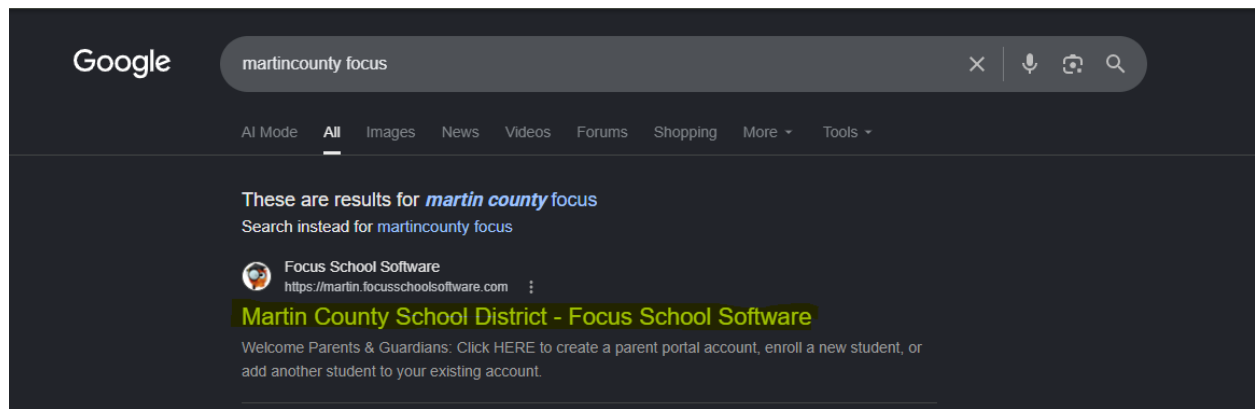

The password will be your Martin County password that is a combination of your initials and numbers.

Note to Teachers: The students password is located in the DEMOGRAPHIC TAB of FOCUS at the very bottom of the students account.

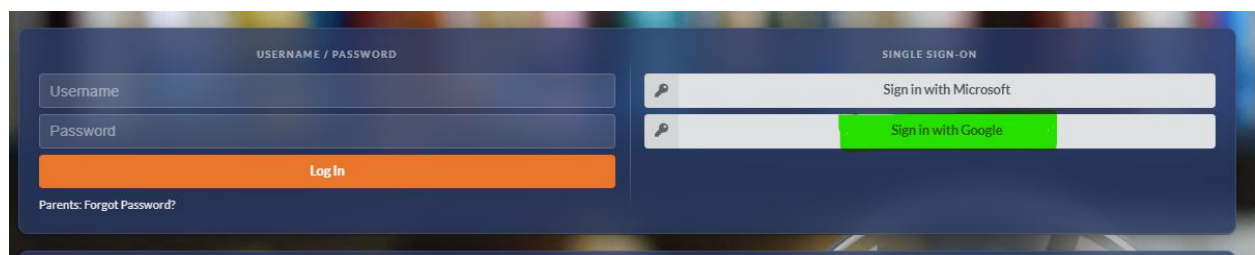

APM Test Ticket Username	[REDACTED]
Student Password	[REDACTED]

Save all of that info into Google.

Then in the address bar, search for "MartinCounty Focus". Click the first link.

On the right hand side of the screen choose the option to log in with Google.

That should fix your issues.

NOTE: This account is only used by a student to check their FOCUS account. Once they are finished in FOCUS, students **MUST** log out of this account and log back into their CLARKALC accounts. The MCSD Domain & the CALCALC Domain do not speak to each other or share any short of information to each other.
