

College & Career Night

College & Career Night

October 15th, 2019

5pm – 7pm

Martin County High School Gymnasium

Our goal is to provide students, parents, and the community with information to help the students of the Martin County School District make the best choices for their future endeavors. College representatives, military recruiters, and career path representatives will be available to speak with students and provide information and support in reaching their goals. Workshops will take place throughout the evening on saving for college, the financial aid process, career technical programs and the college application process. The food truck, Truckabowl, will be in the bus loop for guests to enjoy a tasty snack during the event.

****Transportation is available for students to and from this event. Please sign up for bus transportation with your school's administrator in the Dean's Office by October 11th, 2019.****
